

Lake Illawarra South Public School is now partly powered by sunshine with 80 new solar panels and the school is thrilled to be using this clean renewable energy to power their facilities. The school received funding from the Purryburry Trust and the NSW Department of Education to help finance the system.

Each year the system will:

49%
on facility's
energy bill

Produce enough power
equal to running **233**
computers or **8 homes**

Reduce carbon
emissions by
41 tonnes

Equivalent to
taking **15 cars**
off the road

Solar snapshot

Location:	Lake Illawarra South
Size of system:	34.4 kW
Estimated bill savings:	\$5,950/yr
Estimated energy savings:	46,500 kWh/yr
Simple payback:	2 years (after funding)

What is Solar my School?

Solar my School is a free Council program to help schools in NSW navigate a path to solar success.

"We wanted to make sure we were doing our part to educate students and their families about ways they can help the environment. Solar panels seemed the logical choice to educate students about sustainable practices and how their actions can impact the world."

Karen Simula, Principal
